

OUR CORE VALUES

- Christ Church Academy recognizes the value and worth of each student as a child of God. We encourage our students to be mindful of God's presence in their lives as they grow and become independent learners who develop a lifelong love of learning.
- We teach each student how to integrate and apply Biblical values to all areas of study and life.
- Rather than facilitate mere content transfer, we develop academic and social skills through exploration, problem solving, and creativity. Our curriculum is guided by the Florida State Standards, attends to the whole child, and includes spiritual development, social/emotional development, cognitive development, and physical development.
- We are committed to providing a strong, comprehensive academic structure for reading, writing, mathematics, and science that incorporates creativity, critical thinking, technology, and community into the core of our lessons and activities.
- We value the role of families in the education of the whole child and seek to foster ways to include and extend support to the parents and guardians as an extension of our CCA Family.
